Rehabilitation of Tulkarem Hospital – Phase III

PROJECT AIM (OVERALL OBJECTIVE)

Construction of a new floor for the new Tulkarem Government Hospital and Renovation of old Hospital departments.

PROJECT DESCRIPTION

This project is the third phase of the construction of the New Government Hospital to serve the Tulkarem District in the West Bank. The first two phases of the project implemented by UNDP with funding from the Government of Japan comprised the building of the basement and ground floor of the new hospital. During this phase of the project, the first floor will be constructed. In addition, the old Tulkarem Hospital will be renovated in order to accommodate the Operating Theater, Pharmacy, and Outpatient Clinics. Project in final stages.

OBJECTIVES

- To improve health care services and accessibility

IMPACT STATEMENT

- There is an increase in the number of patient beds available.
- The number and types of health care services provided increased.
- The general public health of the population improved.

PROGRESS UP TO DATE

- All initial works for the additional floor and rehabilitation of the old building have been completed. The works completed for the new floor encompass the following:
- Surgery department which includes two major surgery rooms, one minor surgery room, recovery room, medical stores, nurse station, doctors rest area, male and female changing rooms, sterilization zone and medical report office.

THEMATIC AREA

Poverty Reduction

SECTOR / SUB SECTOR

Health

PROJECT DETAILS

Project Number	00014179
Award Number	00014179
Duration	Sept 2000 – Dec 07
Donor	Government of Japan
Partner	Ministry of Health

BUDGET

Total Budget	US\$2,300,000
Disbursement up to date	US\$2,276,925

Geographic Location

Tulkarem City, Tulkarem Governorate
